SUMMARY

As a Junior Frontend Developer with more than 6 months of hands-on experience, I excel in crafting responsive and dynamic user interfaces using HTML, CSS, JavaScript, Bootstrap, and React. My expertise lies in implementing innovative designs and optimizing web applications for seamless performance across devices.In addition to building interactive features, I am proficient in debugging and maintaining clean, efficient code to ensure usability and functionality. I have experience collaborating with teams to deliver solutions that meet business and user needs. My work demonstrates a commitment to staying updated with industry trends and maintaining best practices in frontend development, ensuring high-quality and scalable outcomes.

EDUCATION

Bachelor of Science

Government Postgraduate College
Kohat   2020-2024

SKILLS

As a junior frontend developer with backend internship experience, I work with HTML, CSS, JavaScript, React, and Node.js. My responsibilities include building responsive designs, implementing features, debugging, and optimizing performance. I ensure seamless user experiences and collaborate effectively to maintain clean, scalable code
